**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO'638 or WO'660.

The applied references teach all elements of the claimed invention except for specifically claimed stabilizing solvent.

See WO'638 page 1, lines 10-30, page 2, lines 20-35, page 3, page 4, lines 1-20, claims.

WO'660, page 1, lines 1-10, 32-38, page 2, lines 25-37, page 3, page 4, claims.

However, the applied references teach that it is well known in the art to use stabilizers in the impregnating solutions comprising furan. It would have been obvious to one having ordinary skill in the art at the time of the invention to select stabilizing compounds accordingly since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice.

Art Unit: 1773

The amendments and remarks submitted by Applicants in their last response have been fully considered. The claims, however, remain unpatentable in view of the above rejections. The arguments have not been persuasive. The examiner believes that it would have been obvious to add alcohol to the composition since such would improve mixing properties. The rejections are still believed to be proper and are maintained.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to leszek b. kiliman whose telephone number is 571-272-1509. The examiner can normally be reached on M-T, 6.30-5.00.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
